## PURPOSE

To support the youth at Emerson St. for Teens & Young Adults as they explore different careers that interest them. Emerson St. provides a supportive community for teens and young adults, ages 15 – 26, seeking connection and belonging. This inclusive, welcoming place offers a variety of activities and services that support young people in enhancing their mental health and overall well-being. Supported employment and education are a part of the holistic services we offer, and their goal is to assist young people in making decisions about higher education, job paths, and career options. Volunteers in this role would share about their own career path and experiences and offer insight into the field in which they have expertise in the form of informational interviews.

## KEY RESPONSIBILITIES
